

ENVIRONMENTAL POLICY of PORR s. r. o.

(translation of the Slovak original)

PORR s.r.o. is aware of the importance of the environmental protection during its own activities and therefore, the company decided to follow a proactive approach to the environmental protection by means of implementing and maintaining the environmental management system in its own activities according to the international standard EN ISO 14001:2015 and conditions of participation in the Eco-Management and Audit Scheme (EMAS).

We advocate our approach to the environmental protection by fulfilling the following commitments:

—
The top level management is assuming personal responsibility for the effectiveness of the environmental management system.

—
We perform the activities in accordance with environmental legal standards, rules and other requirements and we adhere to the commitment to fulfill the legal and other requirements related to environmental aspects.

—
We analyze the potential impacts of environmental aspects on all environmental compartments.

—
We ensure the prevention and by the preventive action we improve the environmental protection by removing the causes directly at their source.

—
We raise and deepen the awareness in the field of environment, so that all employees of PORR s.r.o., including its subcontractors and the general public understand environmental goals and strategy of PORR s.r.o., with the purpose of that during the implementation and fulfillment thereof, they are able to fully collaborate.

—
By means of regular trainings, we are increasing the knowledge of all employees, including the subcontractors, about the best practices and principles of the environmental protection.

We inform the employees, suppliers, general public and public authorities about the achieved results and other intentions in the field of environment, where necessary.

—

We work towards minimalisation of negative impacts of our own activities to environment and like that we are constantly improving our environmental behaviour.

—

We prefer such external subcontractors during the selection proces, who are able to fulfill the committments in accordance with environmental legislation and comply with requirements of the environmental management system..

—

The committments arising from our environmental policy are available to the general public.
