Flora's garden

The architecture was designed by the renowned architectural firm Hermann Kaufmann. Particularly impressive are the lift shaft walls in the stairwell, which are designed in exposed concrete with rough board panelling. This gives the building a unique aesthetic and creates a link between tradition and modernity.

Impressions

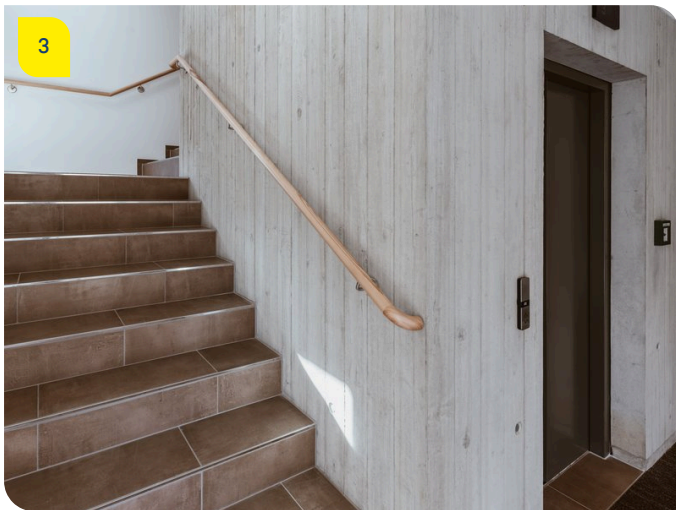

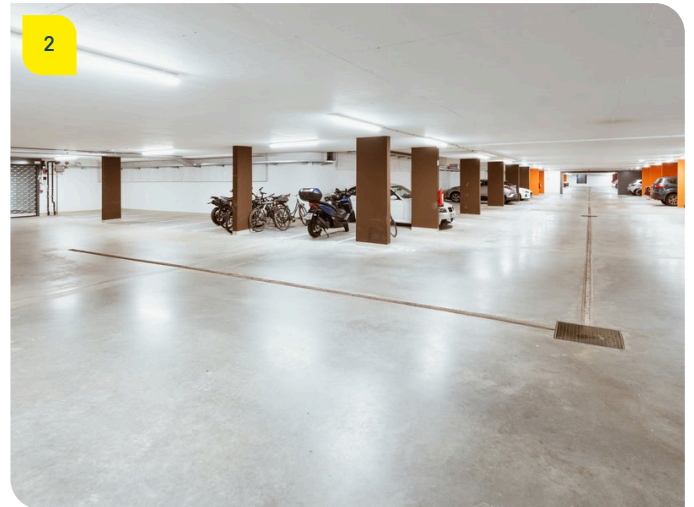

Image notes

1

ARGE L1 - Flora's Garden

Flora's Garden - Residential houses in hybrid construction

2

ARGE L1 - Flora's Garden

Flora's garden - underground car park

3
