

Axenstrasse, rock protection Dornisporn

Data and facts

Company

PORR SUISSE AG

Type

Rock technology, Structural engineering

Runtime

03.2021 - 11.2021

Principal

Federal Roads Office FEDRO

[Project report online](#)

www.porr-group.com

Spectacular rock stabilisation project.

In total, PORR installed rock bolts with a total length of 6,000m and mounted 4,500m² of steel wire nets as well as 25m of rockfall protection nets. The rock has now been cleaned over an area of 8,000m². 160m³ of rock were removed. Finally, shotcrete work was carried out to secure the surface of the rock.

Impressions

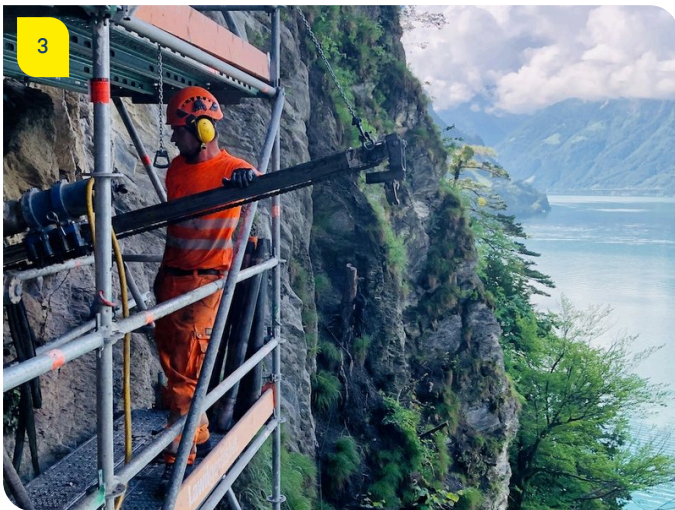

Image notes

1

Full effort of man and machine.

Working on a hanging rope.

2

Giddy high scaffolding on the rock.

Working on the hanging rope as well as on the scaffolding requires absolute freedom from vertigo.

3

Impressive workplace.

Drilling anchor holes under difficult conditions.
