Bridge connection.

Impressions

Image notes

1

Safety at heights.

A good head for heights was an essential requirement for the construction workers.

2

Work site in the lofty heights.

It was a 50-metre vertical climb from the valley floor to reach the construction site.

3

Safety first.

An area of 360m² was sealed using liquid plastic sealant in order to ensure the safe usage of the section of rail.
