Data and facts

Company	ÖBA – Österreichische Betondecken Ausbau GmbH
Type	Joint, repair and surface technology
Principal	State of Burgenland

[Project report online](#)

www.porr-group.com

Restoration by pieces.

ÖBA was entrusted with the works, and carried out the project in close collaboration with nine different road maintenance depots. Up to four construction parties worked simultaneously at multiple depots to complete the order within the prescribed construction time to the satisfaction of the customer.

Impressions

Image notes

1

Large-scale repairs.

Over the course of the project, cracks in the asphalt slabs were repaired throughout Burgenland.

2

250 km road.

The works took place over 250 km.

3

The greatest care.

The timely and careful repair of cracks in the asphalt slab is important in preventing more severe damages.

4

Streets made smooth again.

170,000 m of cracks were sealed over the course of the project.
