Sustainable construction in line with ESG criteria

Lakeward has set itself the goal of making real strides in environmental, social and corporate governance (ESG) in the property sector. This project is no different: its collaborative efforts, working in close conjunction with PORR and other partners, have resulted in responsible and sustainable development for the new neighbourhood.

Construction began in October 2021. Work on the two construction sites is set for completion by November 2023, with the outdoor facilities to follow later.
