Drill and blast in the north

1900m tunnel works through Liafjell, about 400m tunnel works through Bakliholt as well as a landfill and bridge over Olvikvatnet. In total, the project stretched 5.5km.

Impressions

Image notes

1

Through the rocks.

1900m tunnel works were done during the three years of the project.

3

All eyes on progress.

The know-how in tunneling and state-of-the-art machinery were a key factor to success of the challenging construction.

5

Secluded rig area.

The project near the arctic circle is one of many government projects to secure the traffic from imminent rockfalls.

2

Work underground.

PNC was bringing the necessary construction expertise to Norway.

4

Tunnel in the north.

The Fv17 (Fylkesvei 17) is a 650km long coastal road between Steinkier and Bodø, right on the atlantic coast.
