[Project report online](#)

www.porr-group.com

New hotel in the heart of the capital city.

The façade consists of white parapet and window strips with perforated and corrugated metal coverings, while the ground floor is mostly executed as a continuous glass front. The construction project is subject to the German Model High-Rise Directive and, not least thanks to high demands on fire protection and Hilton's fire-life-safety standards, presents great challenges.

Impressions

Image notes

1

Hampton by Hilton, Berlin

Berlin is currently home to the world's largest Hampton by Hilton hotel
