New district next to university quarter.

Building 2 is a one-storey building designed as a pavilion with a restaurant seating 95 and a terrace for 80 guests.

Building 3 contains a commercial area on the ground floor of just over 1,000m² and 60 micro-apartments on three floors and forms a sound barrier to the E23 motorway. The necessary technical areas, the cellars of the flats and an underground car park are located in the basement.

The aim is to achieve carbon neutrality of the building through heat pumps and a photovoltaic system. A photothermal supplement is also envisaged.

Impressions

Image notes

1

Quality of life in an urban environment.

House 1, open to the south, in generously designed surroundings.
