Safety for rail and road.

Impressions

Image notes

1

Safely through the mountain.

Extensive safety measures were required on the rock face to protect road and railway from falling rock and landslides.

2

Rockfalls kept at bay.

Photo: picture taken from above of entrances to road tunnels through two viaducts; in foreground, part of a scaffold, rock anchor and steel mesh netting

3

Tighter, higher, more difficult.

Works on the rock face presented the construction team with complex challenges.
