Revitalisation of an industrial area.

Modern materials such as concrete, wood, glass blocks and steel complete the interior design of the new rooms. The design of the facades and especially the windows is based on historical examples.

To the PORR project video "Revitalisation of an industrial site - 2021".

Impressions

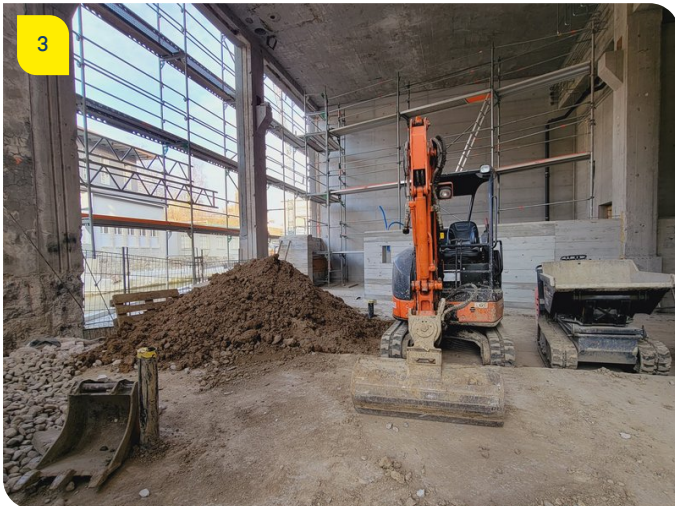

Image notes

1

The west facade directly on the Lorze.

Unique location: directly on the water and close to the village centre.

2

The Papieri site in transformation.

The historic building fabric during the conversion.

3

Transformation in detail.

New concrete and masonry components form a permanent addition to the reinforced concrete structure.
