PORR

New staff accommodation building for Trofana Royal.

As the building is situated on a slope, and each floor “rebounds” back into the mountain, it was necessary to find a rapid alternative building sealing solution to hold back the slope water. Goidinger Bau made successful use of the brown tank technique and completed the construction in mid-September, to the complete satisfaction of the client.

Impressions

Image notes

1

Seasonal accommodation.

A new home for seasonal workers is being built.

2

Nearly ready to move in

The professionals of Goidinger Bau are working on the final touches to the new staff building.
