Principal	Fine Wine S.R.L., LacertA Winery
-----------	----------------------------------

[Project report online](#)

www.porr-group.com

A building like an excellent wine.

In the intermediate storey above, all the technical facilities are located. The ground level is the designated place for the acceptance and sorting hall, as well as the equipment depot, the kitchen, administration, locker rooms and sanitary facilities. In the upper level the winery offers a degustation room for guests.

After 15 months, PORR finished all construction work on time and to the full satisfaction of the customer. The result is a multi-faceted building that reveals its versatility over time – just like a very pleasant wine.

Impressions

Image notes

1

Top quality at every level.

Wet springs and long, dry and sunny autumns offer the best conditions for growing grapes. Processing them and distributing the wines is made easier in a well-thought-out building.

2

Winery LacertA in Fintesti.

One of the most advanced wineries in Romania, designed by Tyrolean architects and built by PORR Construct S.R.L.
